ABOUT US

A Malaysian team building systems around your business

We don't just write code: we build systems that solve real business problems and deliver measurable results. Every project is custom-built from scratch, with no templates. We learn how your business runs first, then decide what the system should look like.

HOW WE WORK WITH YOU

We listen before we build

A free consultation to understand your business, pain points and goals before any development starts.

No surprises

You see the wireframes before development; milestones and regular progress updates, with no hidden costs.

We stay after launch

We deploy and train your team, then keep up maintenance, fixes and new features.

INDUSTRIES WE SERVE

Retail & e-commerce

Logistics & supply chain

Manufacturing

Healthcare & clinics

Education

Automotive

Property & real estate

F&B & restaurants

Enterprise-grade solutions, built for your business

WhatsApp AI customer service

An AI agent on your WhatsApp number that checks stock, takes orders and books rooms or viewings around the clock, and can work straight in your ERP and CRM.

- Replies in English, Chinese or Malay
- Understands photos and voice notes
- Orders, bookings and tickets land in your back office
- Your staff can take over any chat

CRM systems

Centralise customer data, track leads and automate follow-ups, so your sales team closes deals faster.

- All customer records in one place
- Automated follow-up reminders
- Sales pipeline and performance tracking

ERP & inventory

Stock, orders, suppliers and operations in one system. No more spreadsheets or guesswork.

- Real-time stock across warehouses
- Purchase order automation
- Supplier and vendor management

AI automation

Let AI handle the repetitive work so your team can focus on growth.

- Automated report generation
- Smart data extraction (OCR)
- Workflow triggers and scheduling

POS & billing

Fast, reliable point of sale with real-time reports, invoices and e-payments together.

- Multiple payment methods
- Automatic invoices and receipts
- Daily sales reports and staff access control

Custom dashboards

Live business dashboards that show your operations and KPIs at a glance.

- Live KPI monitoring
- Data from several sources in one view
- Role-based access, works on mobile

Business websites

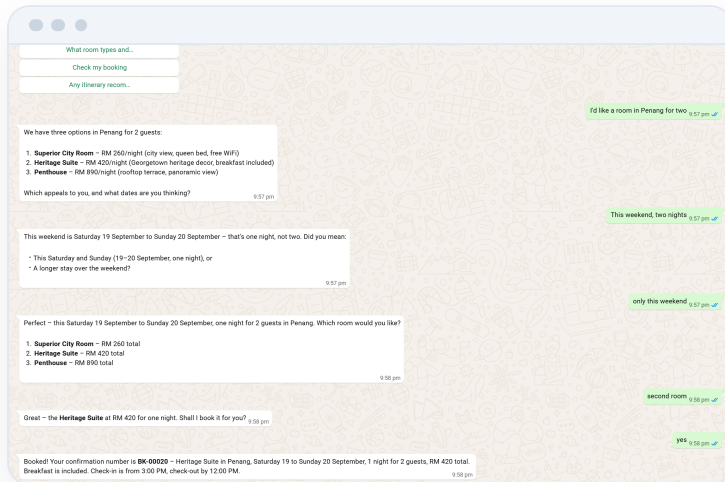

Professional, fast websites built to bring in leads.

- Mobile-first responsive design
- SEO optimised
- Edit content yourself; forms capture leads

TRY THEM YOURSELF

Three demo systems you can open today

These are live demo systems loaded with sample data. Your own project is built from scratch around your business.

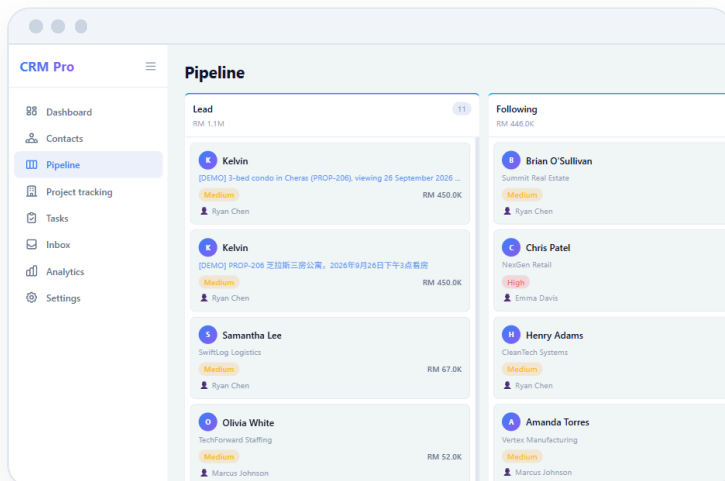

Demo

WhatsApp AI customer service

Five industries: retail, food, hotel, real estate and SaaS. Chat with it the way a customer would.

Scan, send **menu**, pick an industry

Demo

CRM system

Lead tracking, sales pipeline, follow-up reminders and revenue analytics. Viewings booked on WhatsApp land straight on this board.

crm.acuventech.com

Demo

ERP & inventory

An ERP for Malaysian SMEs: stock across warehouses, purchasing, sales orders and invoices. Orders placed on WhatsApp go straight into sales orders.

erp.acuventech.com

A simple process, with no surprises

Structured and transparent, so you always know what's happening and when it'll be done.

01

Requirement discussion

A free consultation to understand your business, pain points and goals, before a single line of code.

1-3 days

02

UI/UX planning

We design wireframes and user flows for your approval, so you see what you're getting before development starts.

3-7 days

03

System development

We build in milestones with regular progress updates. Review each one and ask for changes any time.

2-15 weeks

04

Testing & deployment

Thorough testing before going live. We handle the servers and deployment, and train your team.

3-7 days

05

Long-term support

We don't disappear after launch. Maintenance, bug fixes and feature updates keep your system running.

Ongoing

Typical project: 3-18 weeks

From the first conversation to going live, depending on the size of the system.
